CREDIT REPORTING: Credit will be reported on behalf of all attendees to CPE Monitor using the NABP ePID and date of birth (MMDD) on submitted evaluations. To receive credit, participants must complete an electronic evaluation emailed to participants at the conclusion of each presentation. This evaluation must be completed no later than 1 week (7 days) following the presentation. Eight days after the presentation, a CE credit report will be manually submitted to CPE monitor. Please allow approximately 48 hours following submission for this credit report to appear in the NABP e-Profile. Only ONE session per 45-minute time block may be claimed for a maximum possible 2.25 credit hours.

To ensure accuracy of reporting, all participants should check that their NABP ePID and DOB are correct in their online profiles prior to completion of an evaluation. Participants are responsible for tracking receipt of all CE credit. Any inaccuracies in credit reporting, including missing CE credit, should be reported to our office as soon as possible. Per ACPE policy, no credit can be awarded, for any reason, if more than 60 days have passed from the date of the CE activity.
